RISC-KIT: A new approach towards coastal resilience - What we aim to do and Who we are

RISC-KIT project aspires to introduce new ways to tackle coastal risk and increase resilience in vulnerable areas through an innovative methodology and a strong consortium of partners

2014/05/23

RISC-KIT: European Maritime Day 2014 Workshop "Coasts and Ports at threat" - An Overview

The workshop "Coasts and Ports at threat", organized in the framework of the European Maritime Day 2014, held in May 20, at Bremen, Germany, was an opportunity for the discussion of multidisciplinary subjects related to coastal risk management and for the broader presentation of RISC-KIT to the stakeholders.

2014/05/16

RISC-KIT: Internal deliverable on the synthesis of the collected interdisciplinary data

RISC-KIT consortium developed an Internal Synthesis Report (Deliverable 1.2), aggregating the full range of socio-economic, cultural and physical data from the 11 Case Study sites of the project

2014/09/23

RISC-KIT at the 6th International Conference on Flood Management (ICFM6)

RISC-KIT was represented to the 6th International Conference on Flood Management by Middlesex University, through a paper about the development of vulnerability indicators for European coastal zones.

2014/09/19

RISC-KIT's 2nd article in Floodlist

RISC-KIT published a new article in FloodList, aiming to broaden its outreach regarding the increase of resilience on coastal flooding, by interacting with a global information platform, specialized in similar events and their impacts.

2014/09/15

RISC-KIT: 3rd General Assembly Meeting

The 3rd General Assembly Meeting of the FP7 European project RISC-KIT will be held in Bologna, Italy between 4 and 7 of November 2014 and will gather representatives of the project's consortium as well as members of the End-Users' Board of the project.

2014/04/15

RISC-KIT promotional material - Brochure

RISC-KIT releases the project's brochure.

2014/07/15

WMO publishes the Atlas of the Mortality and Economic Losses from Weather, Climate and Water Extremes

In Geneva, in 11 of July 2014, World Meteorological Organization released a comprehensive report describing the distribution and impacts of weather, climate, and water-related disasters globally, incorporating data and information from 1970 to 2012 and highlighting measures to increase resilience.

2014/07/18

Costs due to sea-level rise induced coastal damage could exceed €17 billion - JRC study

In June 25 2014, the Joint Research Centre of the European Commission released the results of new study regarding the effects of climate change in Europe, focusing to the results that inaction can have for society and economy.

2014/09/12

[EVENT] Joint Belmont Forum-EU FP7 projects meeting & Workshop Coastal Vulnerabilities - Knowledge and Evidence for Policy

23 September 2014

2014/09/09

[CONFERENCE] Deltas in time of Climate Change

24-26 September 2014

2014/09/11

[WORKSHOP] Workshop on Coastal Erosion in Tuscany

25-27 September 2014

2014/10/15

[Conference] ICZM2014: 3rd Integrated Coastal Zone Management Symposium

October 14-17, 2014

2015/05/14

[CONFERENCE] 2nd European Climate Change Adaptation Conference

12-14 May 2015

2014/08/27

Job Opportunity: 2 Project Engineer Modelers in International Marine Dredging Consultants (m/f)

International Marine Dredging Consultants (IMDC), based in Antwerp, Belgium, are offering 2 positions for Project Engineer Modelers with focus on: a) coastal and estuarine modeling and b) shelf sea modeling.

2014/09/03

Job Opportunity: Project Engineer on OpenFoam CFD Modelling in International Marine Dredging Consultants (m/f)

International Marine Dredging Consultants (IMDC), based in Antwerp, Belgium, are offering 1 position for a Project Engineer OpenFoam CFD Modeler.

2014/09/12

Job Opportunity: Postdoctoral position in the field of Sand Transport Modelling by Waves, along Cross-shore Beach Profiles

Deadline: 1 October 2014
